

End of an era!!

Dear Patients

As from 1st October 2021 Grange Farm Medical Centre will no longer be managed by, or be linked with Derby Road Health Centre.

As patients, the main difference you will notice going forward is Dr Jill Jones and Dr Lois Mugleston will sadly no longer be working at the practice after 30th September 2021. We have 2 new GPs coming to work at the practice, Dr Liz Kedge and Dr Jess Li – the other doctors are remaining the same. The nursing and admin teams are remaining the same although Kateryna, our healthcare assistant who works on Thursdays is an employee of Derby Road Health Centre so she will no longer be helping us on a Thursday – we are currently advertising for a new member of the team to cover the Thursday.

From the 1st October 2021 Grange Farm Medical Centre will be managed by Nottingham City GP Alliance so the logo and uniforms will change but the way the team at Grange Farm Medical Centre look after you and your health needs on a daily basis will continue as it is.

On behalf of Derby Road Health Centre we would like to wish you well for the future and reassure you that the team at Grange Farm Medical Centre will continue to look after you to the best of their ability going forward.
